

Decentering Citizenship: Gender, Labor, and Migrant Rights in South Korea – Dr. Hae Yeon Choo

Decentering Citizenship follows three groups of Filipina migrants' struggles to belong in South Korea: factory workers claiming rights as workers, wives of South Korean men claiming rights as mothers, and hostesses at American military clubs who are excluded from claims unless they claim to be victims of trafficking. Moving beyond laws and policies, Dr. Choo will examine how rights are enacted, translated, and challenged in daily life and will delve into the concept of citizenship.

Hae Yeon Choo is Assistant Professor of Sociology and Affiliated Faculty of the Asian Institute and the Women and Gender Studies Institute at the University of Toronto. Dr. Choo's research centers on gender, transnational migration, and citizenship to examine global social inequality.
